Introduction

The **Code** is a mandatory set of requirements to ensure best practice before, during and after the purchase of a **Home**. The **Code** applies to all **homes** in a development where the development was registered with **Checkmate** for a **Checkmate Warranty** after 30 April 2014. All **Builders** who provide a **Checkmate Warranty** agree to comply with the **Code**.

Where a **Builder** is found to be in serious breach of the **Code**, **Checkmate** can apply a range of sanctions, including removal from the **Directory** and may recommend removal from registers maintained by other home warranty bodies.

For **Disputes** that are not covered by the **Checkmate Warranty**, Clause 20 of the **Code** outlines the **Dispute Resolution Scheme** for complaints arising and made in writing to the **Builder** within two years from completion of the sale between the **Builder** and the **Buyer**.

The **Code** also benefits second and subsequent **Buyers** of the **Home** but only in respect of after sales matters reported within two years from the effective date of the **Checkmate Warranty**.

The **Code** is in addition to, and does not replace, existing legislation affecting the sales and marketing of new homes to the consumer.

1. Adopting the Code

Builders must comply with requirements of the **Code** and have regard to good practice.

The **Builder** may adopt a different approach to satisfy **Code** requirements; however, the **Builder** must provide a similar level of information and achieve a comparable outcome to the **Code**.

The **Code** sets the marketing, sales and customer service requirements that **Builders** must achieve before, during and after the **Home** sale. The **Code** does not affect the existing legal rights of the **Buyer**. The **Code** encourages transparency and emphasises the importance of all stages of the **Home** sale process.

2. Purpose of the Code

The **Code** ensures **Buyers**:

- are treated fairly;
- know what service levels to expect;
- are given reliable information upon which to make decisions;
- know how to access speedy, low-cost dispute resolution arrangements if they are dissatisfied.
- in a vulnerable position are identified and given bespoke tools to help assist them in making decisions.

The **Builder** must have a system and procedures for receiving and handling all service calls and complaints received from the **Buyer**.

3. Scope of the Code

The **Code** applies to **Disputes** that involve the **Home** built by the **Builder** and that has a **Checkmate Warranty**.

The **Code** does not apply to:

- second-hand properties (for example, homes taken by **Builders** in part exchange and re-sold);
- properties acquired by Registered Providers;
- properties acquired for investment purposes;
- properties let on short term assured tenancy agreements;
- properties built by self-builders or under contract between a builder and an individual for their own occupation;
- properties built under architects' certificates

The **Code** does not cover disputes over

- personal injury claims;
- loss of property value or blight;
- claims relating to the land conveyed and its registered title;
- claims where the amount of redress claimed exceeds the limits of the **Dispute Resolution Scheme**.
- claims that are covered by the **Checkmate Warranty**

Matters within the scope of other dispute resolution or ombudsman schemes should be referred to the relevant organisation. In such cases, these schemes will take precedence over the **Code** and its associated **Dispute Resolution Scheme**.

4. Access to the Code

Builders must make the **Code** available to prospective and existing customers at no cost and in a format(s) that allows the customer to take the **Code** away for further study or to access the **Code** remotely from the **Builder** Sales Office [e.g. on the internet or at www.checkmate.uk.com].

Builders must display the **Code** in the public show house, sales office or other public areas related to the sales process. The **Code** must be included in **Buyer's Reservation Agreement**.

Builders must make the **Code** available in a variety of formats [e.g. large print and languages other than English depending on local demographics] and media, and fulfil reasonable requests for an unavailable format [e.g. audio] within ten working days of a customer request.

Builders shall help **Vulnerable Buyers** make informed decisions. Builders shall ensure they understand the **Code**, the purchase and their responsibilities. The **Builder** shall provide details for Citizens Advice Service, a champion for consumer information, who can represent and support the **Buyer** if required.

Citizens Advice Bureau:

www.adviceguide.org.uk

Tell: 0345 4040506

For **Northern Ireland** go to www.citizensadvice.co.uk

For **Scotland** please go to www.cas.org.uk

The **Builder** must give the **Buyer** a document outlining the system and procedures, and how to access the **Dispute Resolution Scheme**. This document must mention the scope of the **Code**, exclusions and deadlines and highlight the fact that all complaints must be made within two years from completion of sale between the **Builder** and the **Buyer**.

5. Customer service & staff training

Builders are advised to create processes and procedures to comply with the **Code's** requirements and to monitor staff performance against the **Code**. This should include training on how to identify **Vulnerable Buyers** and ensure appropriate procedures are in place.

In order to provide reliable and consistent service, agency staff (i.e. those who are not full or part-time employees of the **Builder**), must be subject to the same process and procedures as permanent staff.

Builders are advised to monitor and refresh staff training on an annual basis and provide evidence if requested by **Checkmate**.

6. Sales and advertising

Sales material and advertising must use plain English and the content must be transparent, clear, truthful and comply with relevant code of advertising and the law. For Example;

- UK code of no-broadcast advertising, sales promotion and direct marketing
- The television advertising standards code
- The radio advertising standards code
- And any other relevant code

Builders must make it clear in their advertising that they are members of, and adhere to, the Checkmate Consumer Code for Builders of Homes for Sale.

Builders shall not use high pressure selling techniques to influence the **Buyer's** decision and must ensure all staff are aware of their responsibly and requirements under the **Code**, including part time staff.

Builders shall not mislead the **Buyers** about;

- size
- specification
- pricing
- completion dates
- energy performance ratings
- mobility adaptations
- warranty provisions
- future phases
- facilities on the completed development

Builders shall not use high pressure selling, for example builders should not;

- encourage a reservation by implying there are other interested parties or there imminent price increase due where there is neither
- offering a financial incentive for an instant decision
- encourage a reservation by refusing the opportunity to personalise the **Home** where the stage of construction would still allow it.

Part Exchange Schemes - When a **Builder** offers a Part Exchange scheme for **Buyers** the terms must transparent and must not be used to pressurise a sale. The scheme details must be transparent and provided in writing in plain English and include full details of;

- the full terms and conditions that apply
- how a fair market valuation will be arrived at, which must be independent and obtained from more than one source, each of which must be a member of the Property Ombudsman Scheme
- any deductions that will be made from the valuation
- how a Buyer can qualify for the scheme

When a Part Exchange offer is made the **Builder** must clearly state

- the terms and conditions that apply
- all of the fair market valuations that have been obtained and confirm who provided them
- which valuation is acceptable to the **Builder** and the reasons why
- any deductions from the valuation,
- the date by which the **Buyer** must accept the offer
- the consequences of not accepting the offer by the stated date
- the anticipated date by which the Part Exchange and purchase of the **Home** will be completed

Builders shall provide all **Buyers**, and particularly **Vulnerable Consumers**, adequate time to consider and absorb information provided about the **Home** and any Part Exchange offer.

Builders who are unsure whether advertising or sales material is legal, must check the material complies with *The Consumer Protection from Unfair Trading Regulations 2008* and *The Business Protection from Misleading Marketing Regulations 2008* before making it available to the **Buyer**.

Although there is no general requirement under the Regulations requiring disclosure of information to consumers, *The Consumer Protection from Unfair Trading Regulations 2008* prohibits lack of transparency.

7. Health & Safety for visitors to developments under construction

Customers and **Buyers** who visit a building site development to view **Homes** must be given appropriate health & safety advice, and where applicable appropriate safety equipment [e.g. hard hat, high visibility vest and protective footwear] to wear on site. The **Builder** must make it clear that visitors are personally responsible for following Health & Safety procedures and signage.

Customers and **Buyers** should be asked to sign a document confirming they have received and read [or listened to in the case of audio or live induction] health & safety advice for the development.

For **Vulnerable Buyers**, **Builders** shall provide;

- clear signage
- clear mobility access into and around the site
- accompany with an appropriate adult where needed

- a description of any **Management Services** that will affect the **Home** and their estimated costs which the **Buyer** will have to pay.

The **Builder** must recommend to the **Buyer** that they should seek independent advice from a solicitor or licensed conveyancer before **Contract Exchange**. If the **Buyer** asks the **Builder** to recommend an advisor the **Builder** should recommend more than one wherever possible.

The **Builder** must give the **Buyer** the names and contact numbers of those people who will deal with any questions or problems the **Buyer** may have before **Completion** and who will deal with any complaint raised by the **Buyer** under the **Code**.

9. Information about Completion

The **Builder** must give the **Buyer** information about when the construction of the **Home** is estimated to be finished and made available for occupation and will regularly update that information to enable the **Buyer** to make informed arrangements. The **Builder** will ensure that the information it gives to the **Buyer** is correct at the time it is given. Please also see paragraph 13, which deals with practical completion dates in more detail.

10. Reservation Agreement

The **Builder's** Solicitor will send the **Buyer's** Solicitor or legal representative the **Contract of Sale**, legal title and any relevant documents and approvals as soon as practically possible after a **Reservation Agreement** has been made between both parties.

- details of **Management Services** and an estimate of their costs, if applicable;
- copies of the pre purchase information;
- Part-exchange terms if applicable;
- details of how a **Buyer** can include in the **Contract** any spoken statement that is to be relied on.

The **Builder** must give the **Buyer** a copy of the **Reservation Agreement** signed by both parties.

The **Builder** must not enter into a **Reservation Agreement** with or sell or attempt to sell the **Home** to anyone else until the **Reservation Agreement** has expired.

The **Buyer** may cancel the **Reservation Agreement** during the agreed reservation period. The reservation period may be extended by mutual agreement between the **Buyer** and **Builder**. If the deadline date is not extended and **Contract of Sale** have not been exchanged, the **Reservation Agreement** automatically expires.

The reservation fee must be refunded in full if the **Buyer** wishes to cancel the reservation for any reason with one week of signing the **Reservation Agreement**.

The reservation fee must be reimbursed within 14 days if the **Reservation Agreement** is cancelled or expires, less any deductions the **Buyer** was told about at the time the **Reservation Agreement** was entered in to by both parties.

11. The Contract

The **Builder's** solicitor will send the **Contract** and all relevant documents and approvals to the **Buyer's** independent advisor as soon as reasonably possible after the date of the **Reservation Agreement**.

The **Contract** terms and conditions must:

To avoid disputes over spoken statements, immediately before **Contract Exchange** the **Builder** should ensure that the **Buyer**, through their legal representative, states in writing what spoken statements they are relying on when entering into the **Contract**.

Where the alterations materially affect the value of the **Home** and the **Buyer** does not agree they may cancel the **Contract** without loss of deposit or withholding of any fees.

The **Builder** must ensure that that **Buyer** is aware of the deposit protection covered under the **Checkmate Warranty** and section 10 of the **Code**.

Minor changes which do not significantly and substantially alter the size, appearance or value of the **Home** should still be communicated to the **Buyer**, but the **Buyer's** agreement is not required. However the information should be given to the **Buyer** with the advise that they may want to consider consulting their independent adviser.

Changes the **Buyer** requests and agrees to pay for that are not included in the **Reservation Agreement** or **Contract** must be set out and agreed in writing signed by the parties. This written document must include:

Practical completion of the **Home**
